PROFESSIONAL SUMMARY

Dedicated IT professional with experience in Core Banking Operations, Cloud Engineering, and Automation. Proficient in Linux Server Administration, Database Management, and RPA development. Adept at streamlining operations using modern technologies like NiFi, Grafana, and UiPath. Passionate about optimizing processes through automation and improving efficiency with a strong foundation in systems administration and cloud-based solutions.

WORK EXPERIENCE

PT Boer Technology **Jakarta, Indonesia**
Site Service Engineer *Jan 2022 – Present*

- Managed core banking operations and ecosystem platforms, including end-of-day processing, monitoring, and ensuring service availability.
- Monitored and optimized data flows, system resources, and application performance using tools such as NiFi, Grafana, and Kubernetes.
- Automated operational processes and reporting using UiPath, Bash, Python, and JavaScript, increasing efficiency and reliability.
- Supported deployment and integration of new services and enhancements across multiple platforms.
- Handled incident management, complaint resolution, and ticket follow-ups to maintain platform stability and user satisfaction.
- Performed housekeeping and maintenance of storage and logging systems, ensuring data integrity and cost-effective resource utilization.
- Developed and maintained automated reporting solutions, including bot-based reporting systems.

PT Satunol Mikro Sistem **Jakarta, Indonesia**
Field Engineer Telecom *Aug 2018 – Jan 2022*

- Led commissioning of PLC, Multiplexer, and Teleprotection systems for Siemens-PLN projects.
- Successfully commissioned Baseband, MLTN, ML6K for Ericsson-Telkomsel projects, ensuring optimal telecom system functionality.

EDUCATION

Binus University **Jakarta, Indonesia**
Bachelor's Degree in Information System *Nov 2024*
GPA: 3.82/4.00

PROFESSIONAL TRAINING

- Adinusa Bootcamp** — Path Cloud Engineer, March 2022
- Kubernetes Administration**, April 2025
- PostgreSQL Administration**, July 2022
- Btech Linux Foundation IT Associate (LFCA) Training**, Nov 2021

PROJECTS

- Prakarsa** — prakarsa.id
As a Front-End Developer, I transformed Figma designs into responsive, high-performance web interfaces and seamlessly integrated the front-end with backend systems by applying clean coding principles and industry best practices.

ADDITIONAL

Technical Skills: JavaScript (Node.js, Express.js), Python, UiPath (RPA), Shell Scripting, API, Linux (Server Administration), PostgreSQL, SQL, NiFi, Grafana, ELK, Github Action.

Languages: Bahasa Indonesia (Native), English (Conversational)

Certification and Training: Linux Foundation Certified IT Associate (LFCA), Linux Foundation Certified System Administrator (LFCS), PostgreSQL Administration, Docker For DevOps, Kubernetes Administration, OpenStack Administration.
